Application

These cables are used for flexible use for medium mechanical stresses with free movement without tensile stress or forced movements in dry, moist and wet rooms but not suitable for open air, as measuring and control cables in tool machines, conveyor belts, production lines in machinery production, in air-conditioning and in steel production.
Selected PVC-compounds guarantee a good flexibility as well as an economic and fast installation.
CE= The product is conformed with the EC Low-Voltage Directive 2006/95/EC.
